

**BIRD PHOTOGRAPHY**

# **TALE FEATHERS!**

WITH SAWIDJI

## **BIRDS and BALI**

Bali is a tropical island surrounded by the sea rich with mountainscapes and forests. Besides the endemic birds and residents native to Bali, Bali is also a destination for many migratory birds.

Birds from many parts of the world such as shore birds, raptors, and species from other islands have been seen in several places in Bali. Species such as the Glossy Ibis, Royal Spoonbill, Osprey, Horsefield Bronze-Cuckoo, Chestnut Cheeked Starling, White Faced Heron, Brown Booby, and many others.

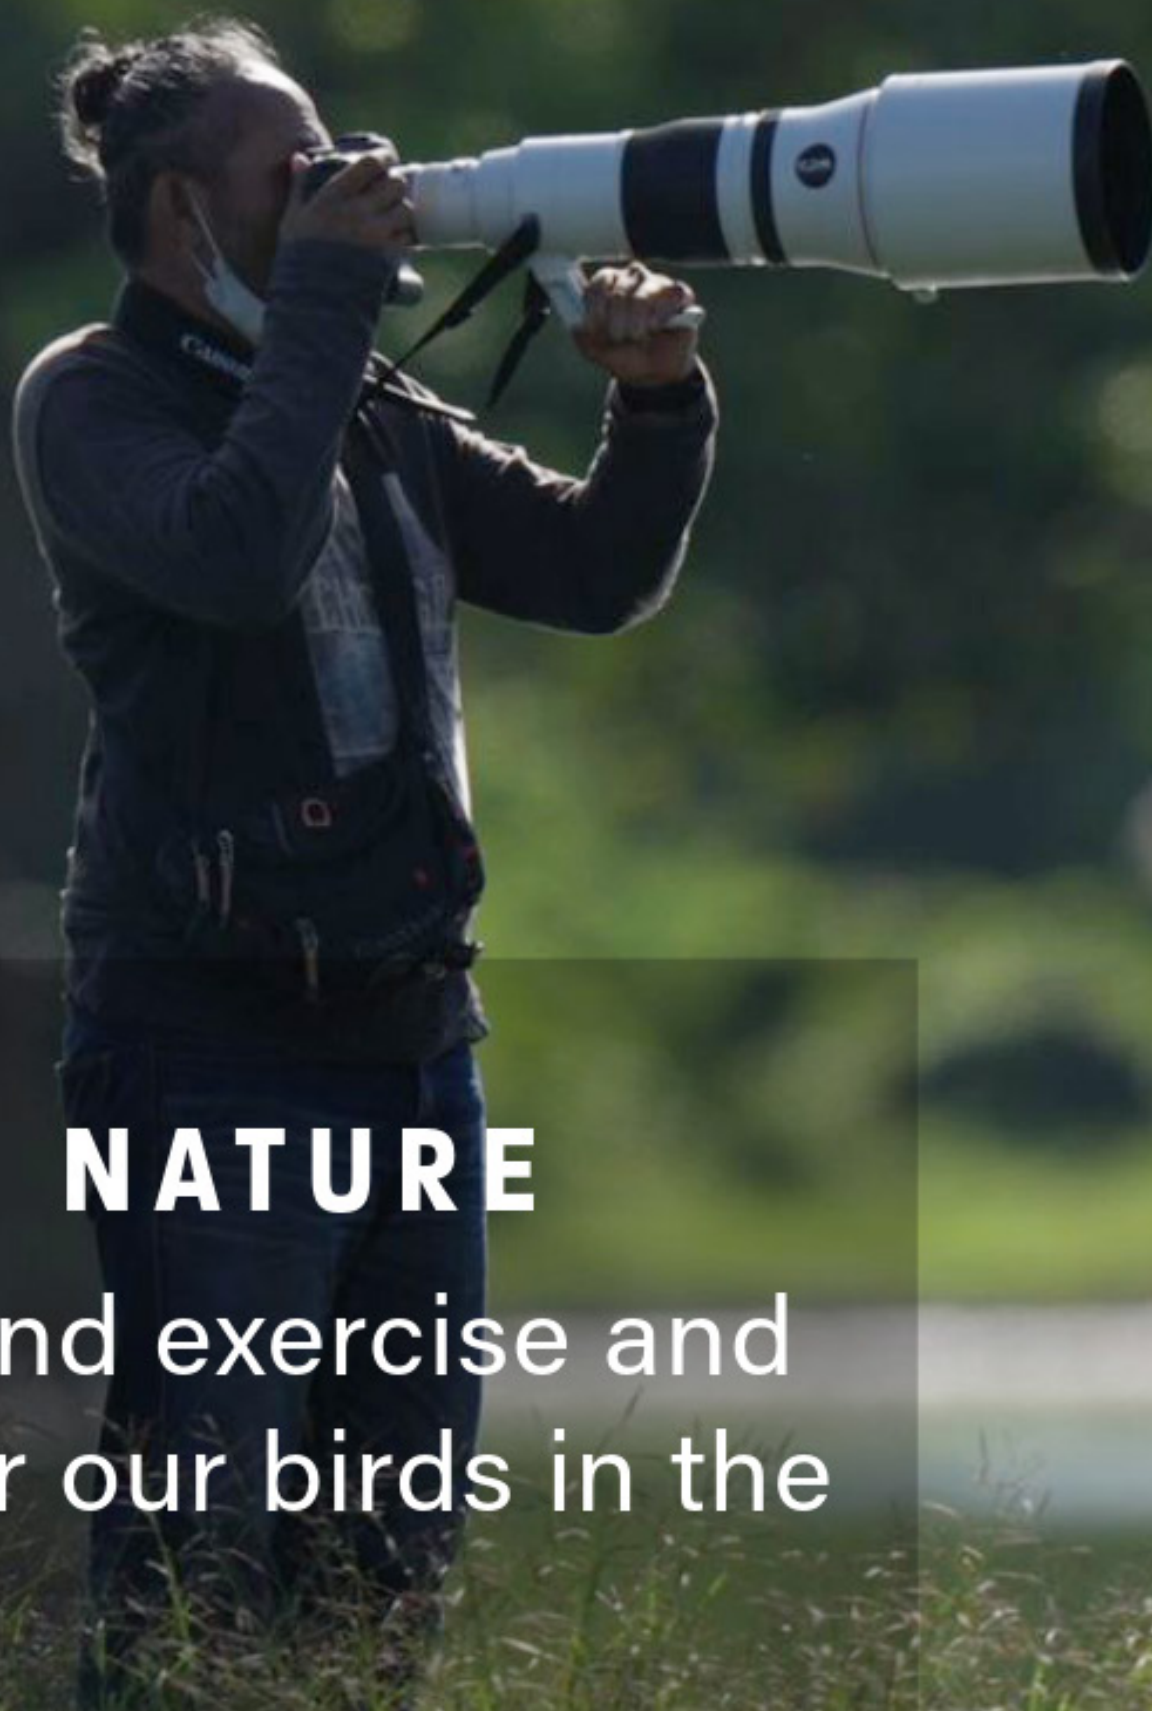

# **BIRD PHOTOGRAPHY**

## *with a difference!*

The Sawidji Tale Feathers Program will share with you not just how to take good photographs of wildlife but also share knowledge of the birds we have come to sight in the area, and interesting things about local flora and fauna through our local culture as well. The knowledge we share hopefully can help with conservation efforts.

### **GET BACK TO NATURE**

Enjoy fresh air and exercise and help to look after our birds in the wild

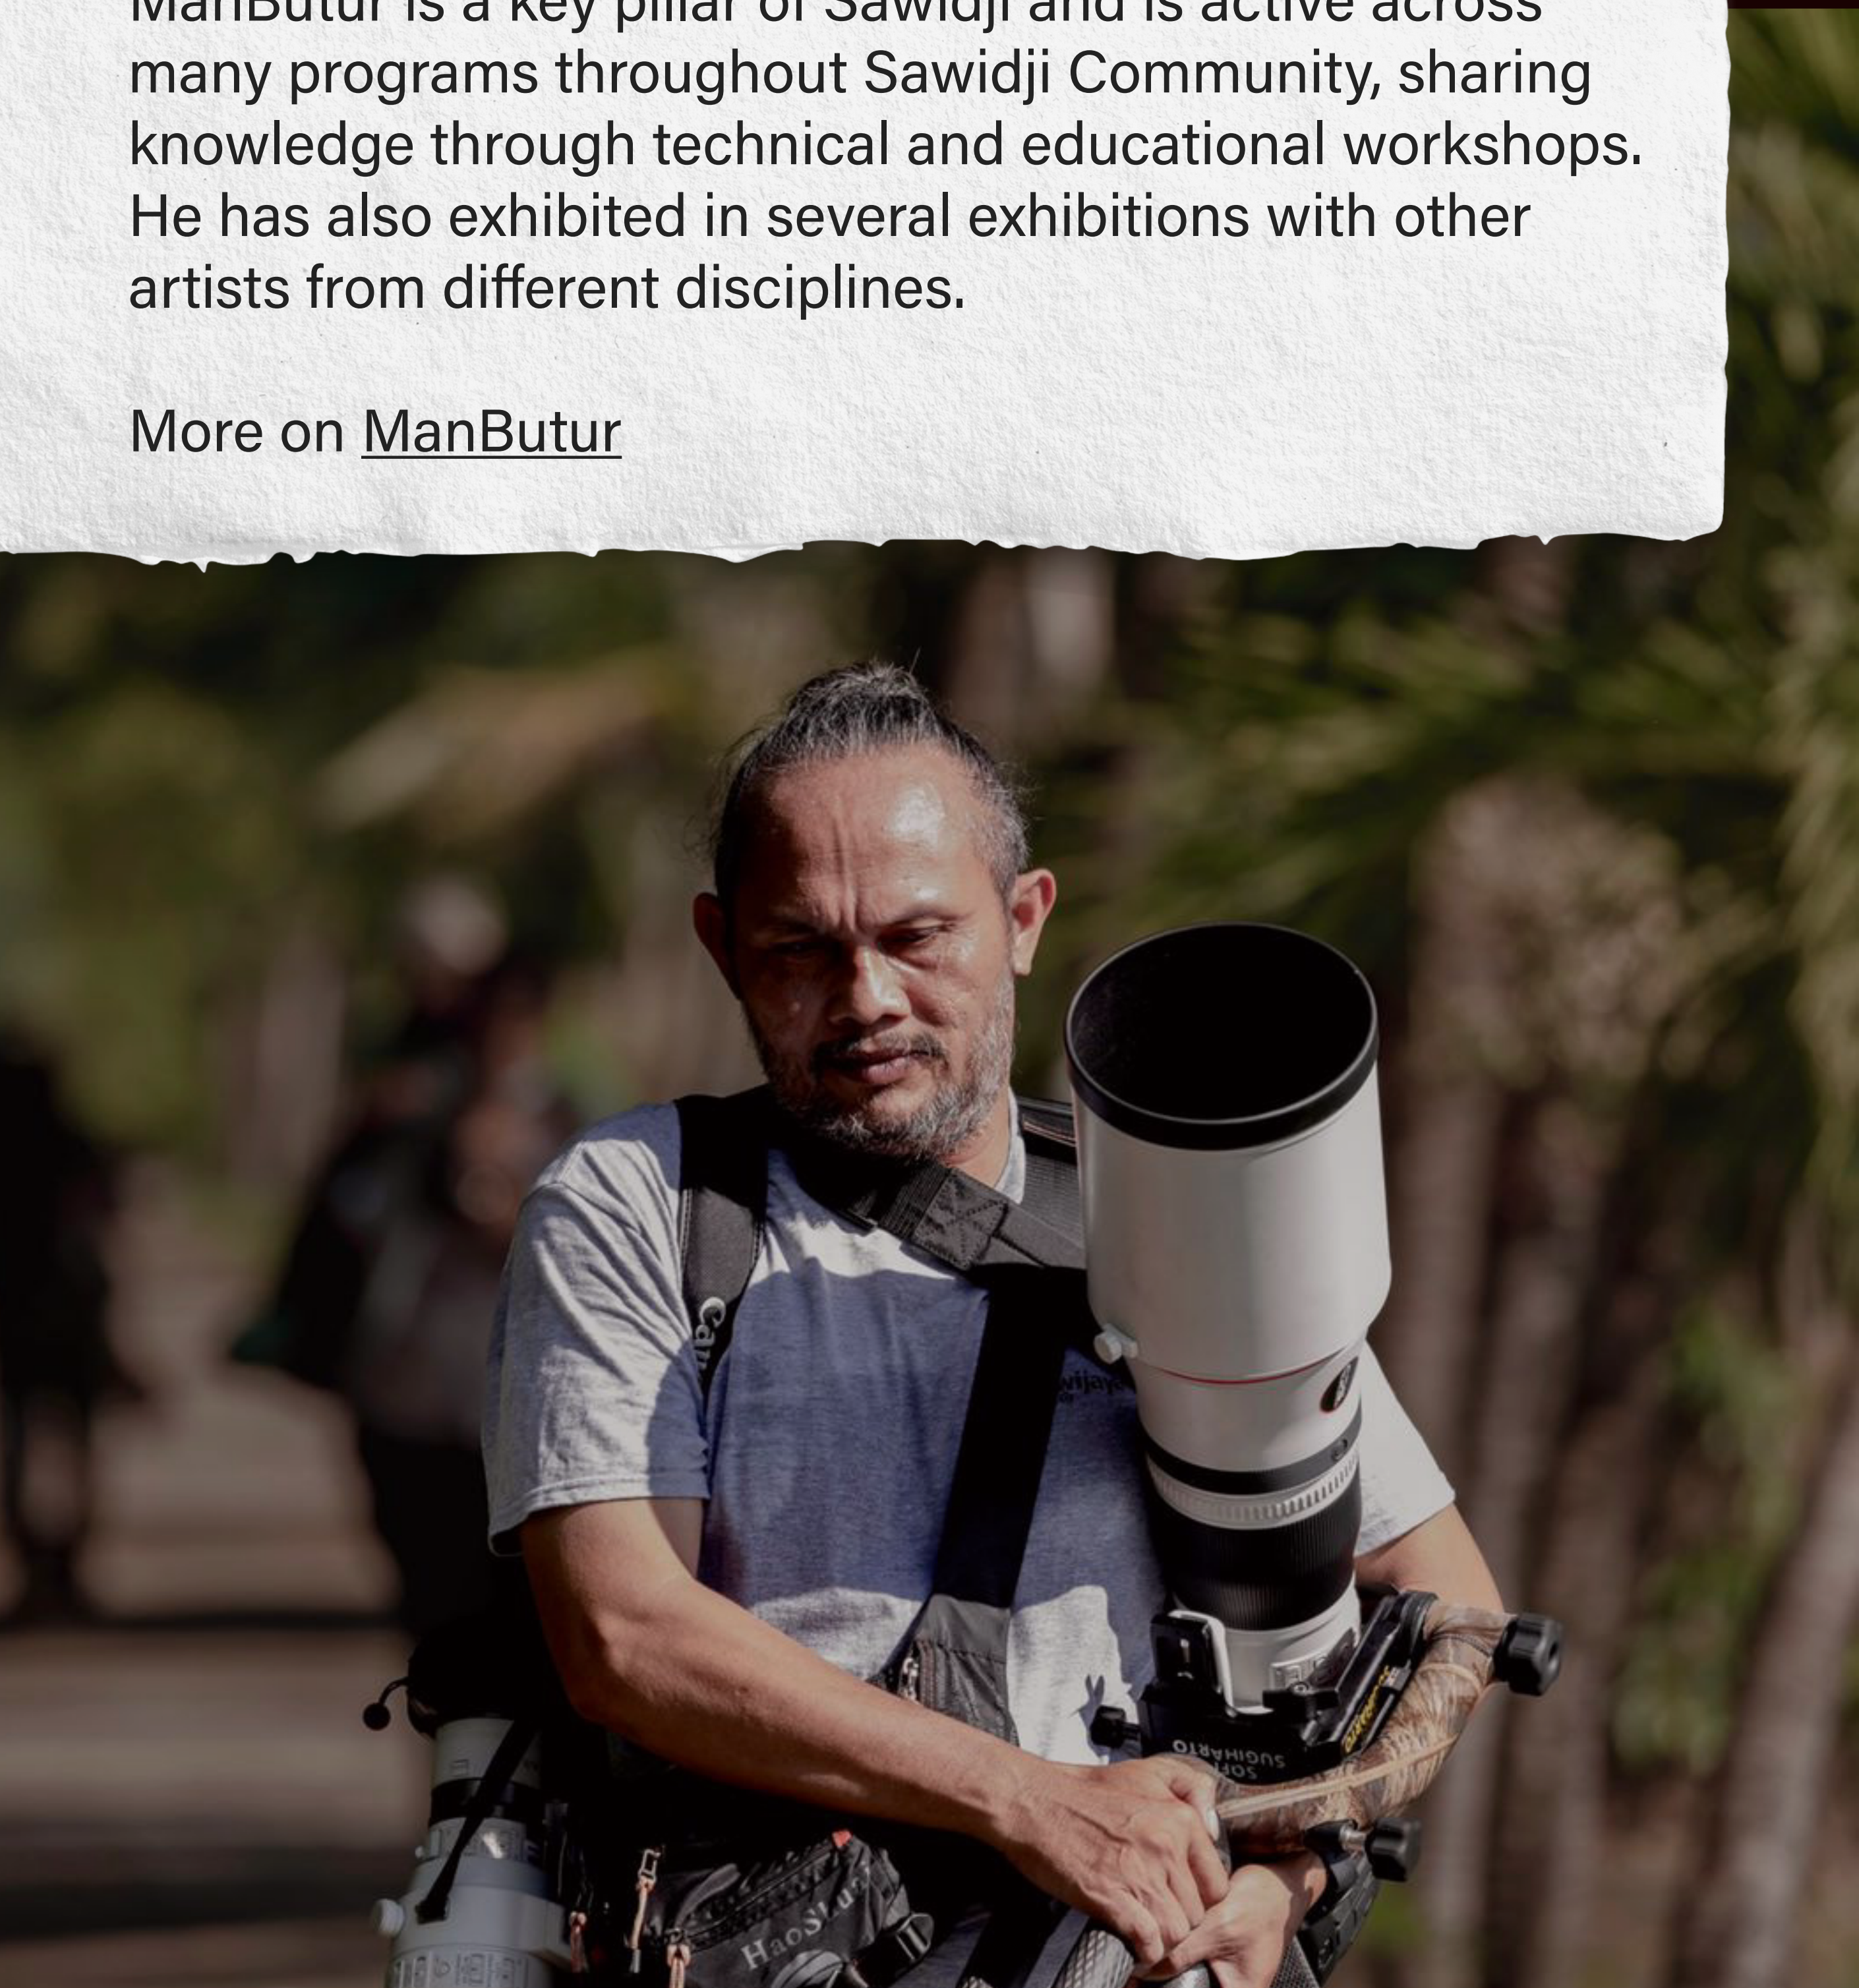

# MANBUTUR SUANTARA

Your mentor is ManButur Suantara. With approximately 20 years of experience in photography across many genres. Travelling to islands across Indonesia and other countries. With associations to My Trip Indonesia as a mentor and Sriwijaya Camera Denpasar as a Professional Photographer.

ManButur is a key pillar of Sawidji and is active across many programs throughout Sawidji Community, sharing knowledge through technical and educational workshops. He has also exhibited in several exhibitions with other artists from different disciplines.

# UNDERSTANDING LEADS TO CONSERVATION

Experiencing how we are  
interconnected to everything in  
Nature

Tale Feathers Photography is not simply about bird photography. Learning about local culture and the environment gives a depth of appreciation for the birds we photograph.

You will find many interesting things about Bali's history, local flora and fauna in ways that are specific to Bali.

## PUPUAN-TABANAN: Beginners Half-Day|Full-Day

If you are a beginner this is ideal to get you started.

A half day trip learning techniques with the assistance of a hide will help get your curiosity going.

## AMAZING BEAUTY

See the amazing beauty in  
our forests and seashores.

Sawidji is an Art Collective,  
Studio and Gallery. With a  
community of many artists of  
diverse talents. It is a creative  
home for those who love to  
share knowledge and inspire  
each other through  
collaborations.

Together through community  
spirit, appreciation of Nature,  
art and culture. Encouraging  
each other through many  
dynamic interactions.

**WHO IS  
SAWIDJI?**

**WHAT DO  
WE DO?**

# MEET THE TEAM

For the Tale Feathers Program, ManButur also will work hand in hand with his partner, to create a memorable trip with all of you. Dian Dewi, Founder of Sawidji. A fellow artist, photographer and writer her knowledge of art and photography has been shared through her work across the Sawidji platforms as well as several exhibitions as a participating artist as well curator.

Together with ManButur they began a special focus on art photography through Sawidji Studio.
